

Dear Parent Carer

Advance Information Subject Plan for Summer 2022 examinations

We are pleased to let you know that the Advance Information for GCSE qualifications for 2022 have now been released. It's part of the package of support available for summer exams this year, in recognition of the disruption to education caused by the pandemic. The aim of advance information is to help guide and prioritise your child's revision. It gives teachers information on the focus of the content of exams in summer 2022 for most subjects and will be used to focus learning and revision.

More general information can be found [here](#).

Advance information for the different exam boards are here.

More details of these and further resources to support Y11 can be found on our Revision Resources section of our [website](#)

Year 11 Revision Support

As we approach the next and final round of mock exams (March 7th) it is timely to draw everyone's attention to the support and structures being put in place for your child ahead of their final period of revision and mock preparation.

As well as the [booster sessions](#) that have run since September, we have now allocated pupils to specific sessions and have given all pupils a personalised booster card outlining what they have been allocated to. You should have received a posted letter with specific sessions for your child.

Saturday School 9.30 - 11.30

School will be open for pupils to get help with specific topics and independent learning strategies.

5th March 12th March 26th March 2nd April 9th April
