## ICELAND 2023

During the February half term, 68 students experienced the Land of Ice and Fire. In two 4 day trips run by the Geography Department, students from Years 10-13 got to experience a unique country unlike any other on the planet..

# Geography Department

## *Iceland trip*

There was a jam-packed itinerary on both trips. These included:

**Visiting Hellisheidi Geothermal Power plant** - Here students learnt how the natural heat from the tectonically active country is used to provide sustainable and cheap energy to the area. They saw the new technology of carbon capture in action and had a giant snowball fight on the lawn!

**The Golden Circle Tour** - in a full day expedition, students visited a range of awesome natural features. These included the hot springs and water spouts at Geysir, the incredible power of water in shaping the land at Gullfoss and walking between two tectonic plates at Thingvellir National Park. They experienced a frozen waterfall and stood at the site of the first parliament in the world!

**Culture in Reykjavik City Centre** - Students got to experience a walking tour of the harbour, to learn about the importance of the fishing and whaling industry to the country and visited a museum showing how life in settlements on the island had changed over time. They then got to spend a couple of hours immersing themselves in the sights and sounds of the main road.

**Blue Lagoon Thermal Spa** - This was by far the most spectacular part of the trip! Students got to spend 3 hours in the world famous Blue Lagoon, a natural geothermal pool. They had a silica mud mask and a drink from the bar whilst immersed in the relaxing milky waters of the lagoon! Bliss!

The students were incredibly respectful on the trip and fully engaged in the new opportunities which were given to them. They embodied our college values. #Proud #Respectful #InspireOpportunities

Trip 2 students visiting the The  
Hellisheiði Geothermal Power Station  
in Hengill, southwest Iceland.

The spectacular Hallgrímskirkja Church set on top of a hill in the centre of Reykjavík is a sight to behold. It was designed to reflect the trap rocks, mountains and glaciers of Iceland's landscape. Standing at 244ft it can be seen from anywhere in the city.

# Student Voice

## Iceland Trip Q&A

### *What was your favourite part of the trip and why?*

- Being with friends and getting closer to the teachers.
- The Blue Lagoon, it was once in a lifetime opportunity to go there for me.
- Reykjavik because I liked how small and safe the city felt, and also how colourful and interesting it all was, for example the rainbow road and the theatre by the coast.
- The golden circle. I liked this because I was able to see some of the most incredible natural landforms.

### *Can you describe how you felt the trip made you feel?*

- The trip made me excited because I was learning about different cultures and experiencing new things.
- Amazed I've never been out of the UK before and being able to see how Icelandic people live and how they survive living in an extremely cold country is really interesting.
- The trip made me feel more respectful toward how lucky we are to live on the earth and how we could change the way we use water and electricity.
- It made me feel a lot more happy, I'm able to socialise more now as well.

### *Did the trip help you work on any of our college's core values?*

- I was given courage to talk to people I wouldn't usually speak to and I was determined to find out more about Icelandic culture.
- It helped me work on Pride because I wasn't just representing the school I was representing the United Kingdom.
- Courage as I needed courage to make new friends on the trip.
- All of the above I learned to respect their cultures and I was able to go on a plane for the first time with the determination to climb the hills with slippery slopes and slippery stairs!

### *What would you say to any of the younger students in college who might be thinking about signing up next time?*

- Definitely do it. It was an amazing experience and I would definitely do it all over again if I got the choice to!
- Do it you will have an amazing time and it's a one in a lifetime experience you learn loads of new things every penny spent was worth it. Go. You won't regret it!
- Pack warm clothes, don't try to act cool. It literally is too cool for you!

## RE Department

### *Easter egg appeal*

Thank you so much to all parents, carers and students that donated 93 easter eggs to us. Students helped to make cards which were attached and given to SVP and other people in our community who are in need this Easter .

### *Liturgical worship*

Liturgical Worship this week reflected upon the Stations of the cross and how we can help those in need this easter time, linked to CAFODs lent appeal. Year 7 students listened quietly to Eve and Antonia as they gave their readings. Afterwards, names were chosen randomly from a box and those students were awarded for various reasons from attendance to good behaviour with an easter egg each. Well Done!

## Cafod Appeal

### *The Big Walk*

We participated in CAFODS Big Lent walk and the aim was to walk 200km for charity.

With the support of the Faith in Action team and 6th form Yr 7 spent lunch times and an inspire time walking, they managed 193km on their own, reflecting upon Poverty around the World. Yr 8 and the 6th form joined them and in total St Mary's managed to walk 403 km over the Lentern period!

Although donations werent the inspiration this year and raising awareness was our focus, if you would like to donate you can do so [here](#)

"THEY FOUND THE STONE  
ROLLED AWAY FROM THE  
TOMB, BUT WHEN THEY  
WENT IN, THEY DIDN'T  
FIND THE BODY OF THE  
LORD JESUS"

LUKE 24:2-3

*He is  
Risen*

*May the Angels protect you  
May the sadness forget you  
May goodness surround you  
May Jesus always bless you.*

*Happy Easter*

# History Department

## Norman castle models

Ms. Stoneley and Mrs Doherty would like to say a massive well done to year 7 for all the hard work and effort that has gone into their Norman motte & bailey castle models. We have been super impressed with all of the submissions this year but particularly the amazing work from Toby, Will, Keira, Emily, Madison and Joshua. Keep up the fantastic work year 7!

# MFL Department

## Moroccan school partnership

The French department is happy to announce their new partnership with Laouamra Junior High School in Larache, Morocco. We had our first online meeting with Miss Alami Kammouri (English Teacher at the school) and are excited to start online projects with our students soon to learn more about each other's cultures, traditions and school life. It is our plan to organise a trip to Morocco with our French GCSE students next year, so that they can experience a French-speaking country first-hand. The French department is also looking forward to their upcoming collaboration with the Art department, where we want to experience and express language through art with our students.

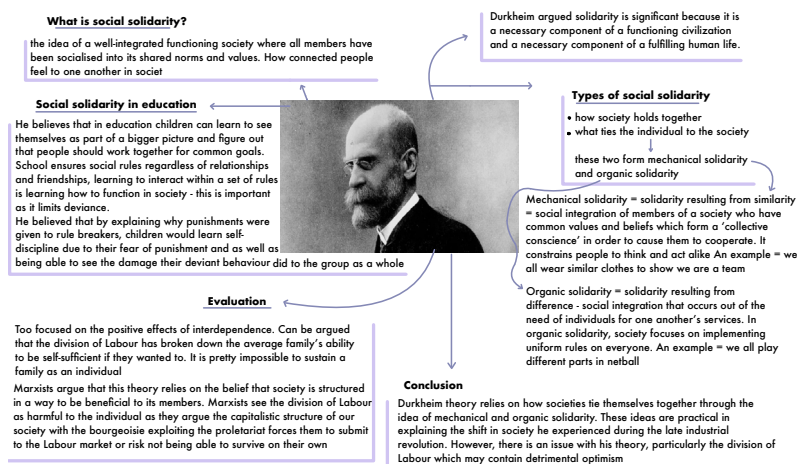

Any questions about the Morocco trip or the French/Art project? Come and speak to Mr Le Normand, Mr Forbes, Miss Aissatou or Miss Rossbach!

# Social Scienses Department

## Sociology

Ms Woods is very impressed with the work our yr 12 Sociology students have been doing on Social Solidarity which they have turned into posters

## Durkheim - Social solidarity

Poster by Andreea D Yr 12

## The Arc

### *Another successful term*

The Arc has had a fantastic term with lots of visitors and we are extremely proud of our students and all that they have achieved. Alisa and Coral both worked together to design an alternative cover for the world book day competition and won a lovely Easter egg and book! We have also been learning about electricity and magnets in our science lessons and created our own electromagnet.

Finally our term has ended nicely with a Lockett visit to harrison park. We are so lucky to live in such a beautiful community and love to enjoy all wallasey has to offer!

## The Library

### *World Book Day Competitions*

The competitions involved designing an alternative front cover for a favourite book or writing a short story that began with the line 'Have you ever had a secret?'. There was also the annual competition arranged by World Book Day itself that asked students to design a WBD token. Prizes were awarded to the best entries and Arbor points given to each entrant. The winners and runner-ups were as follows:

**Front Cover Competition Winner** - Skye D (Yr9) with a beautifully bright alternative cover to *Persona 5*.

**Runners-up** - Jacob G (Yr7) with a skilled and neat alternative cover to *Clone Wars* and Coral S (Y7) with a gorgeously designed alternative cover to *The Sad Ghost Club*.

**Short Story Competition Winner** - Toby P (Yr7) with a chilling story about a child and their sister.

**Runners-up** - Madison G (Yr7) with a brilliant re-write of Snow White from the Evil Queen's perspective and Freya S-F (Yr10) with a terrifying story about the daughter of a serial killer.

Each student won an Easter egg, a World Book day book and a Freddo (with the winners each having two Freddos and a larger egg!)

## Inspire Opportunities

### *Knife crime sessions*

As part of the Inspire Opportunities we want to give our young people high quality experiences beyond classroom lessons that will enable them to make the right choices. Year 10 had a very emotive day exploring knife crime and the issues that arise from this cause.

We started the day with Danny's Place, a charity that facilitates talks to schools, youth organisations and the probation sector about the ripple effect knife crime can have. They addressed the whole year on the impact of losing a loved one to knife crime. The year group then split into smaller groups and followed a carousel of sessions. These were facilitated by Merseyside police, The Paul Lavelle Foundation discussing domestic violence the Anthony Walker Foundation discussing hate crimes and racism and will also had Robert Jackson an accident and emergency Clinical Nurse, who discussed the issues and impact surrounding Knife crime.

**ANTHONY  
WALKER  
FOUNDATION**

## Inspire Opportunities

### *Enterprise day*

As part of our St Mary's Careers Programme, we ran three days of challenges with Inspirational Learning Group during National Careers Week for year 7, 8 and 12. They delivered a series of workshops based around developing employability skills that included; team building, communication, marketing and superb presentation skills.

Working in teams, **Year 7** students were tasked with developing a promotional campaign that would encourage a local transport firm or their local author-

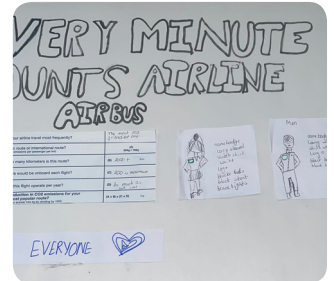

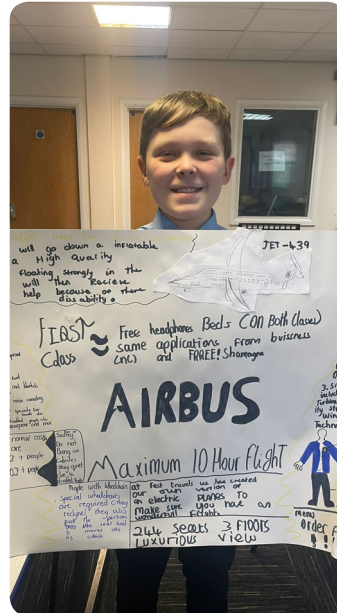

ity to adapt their vehicles to hydrogen fuel. During the day, students identified a suitable transport provider before exploring the benefits of Hydrogen for Mobility to both their chosen client, the local population and the environment to create a persuasive and engaging marketing campaign.

Sponsored by Airbus, the largest aeronautics and

space company in Europe, **Year 8** students were challenged in the future of aviation technology. Drawing inspiration from the broad range of products and services offered and their innovative concept aircraft, students were asked to create a concept for an Airline of the Future which would operate a zero-emission fleet. Students had to consider the target market and USP of their airline, before developing a plan to reduce the carbon footprint of their proposed new service. Students were also asked to consider how they could recruit new employees into their airline in a fully inclusive way. The winning teams from the year 7 and 8 year groups will be representing the College at the National Enterprise Challenge in the summer term with Dragons' Den star Theo Paphitis.

## Drama Department

### *Connections performance*

Year 12 and 13 Performing Arts students performed "Tuesday" by Alison Carr as part of the National Theatre's Connections project. The 2023 project which sees young people stage brand new plays. The performance was watched by proud family and friends as well as Tom Bellerby, a National Theatre associate director. In April, our students will perform again at The Lowry Theatre, Salford Quays as part of the Connections festival there. This is a wonderful opportunity for our students to experience and explore brand-new writing and also perform in a prestigious professional venue.

## Social Sciences Department

### *Sociology*

On Friday, our Y13 Sociology students enjoyed an intensive revision workshop at the Odeon Cinema in the Trafford Centre. The 'Grade Booster Event', ran by Katie and Duncan from Tutor2U, was filled with exam techniques, knowledge recall activities, analysis and application skills, and competitions with students from other sixth forms from around the North West. As always, our students represented St Mary's impeccably, with teachers from other sixth forms praising their enthusiasm and maturity.

# Performing Arts Department

## London trip

# DT Department

## *F1 in schools success!*

On Wednesday 15th March, Mr. Roberts took nine year 9 students who have been participating in the F1 in Schools Challenge since June '22, to the North West Regional Finals at the University of Bolton. Twice a week, after school on Mondays and Wednesdays, the teams have met and learnt about the challenge itself, all the criteria to compete, the need to raise sponsorship and awareness. Students were given guest lessons by our Head of Department Mr Griffiths on 3D Drawing & Rendering, and Clay Modelling. Mr Crawford gave lessons on Fluid Dynamics and Aerodynamics, and Miss McKeown on Business and Project Management. The teams learnt how to use 3D design software, engineering and technical drawing plus so much more. Also, each team member had their own designated role, such as Team Manager, Design Engineer, Technical Engineer, etc. and they stepped up to the challenge in every way.

Their journey has been an amazing team effort with collaboration across different departments with different expertises, and these 9 students, who remained from an original program of 18, who beat 35 other students to be part of the program, got to experience something that only one other school on the Wirral participates in - the F1 in Schools Regional Finals.

In partnership with Aston University in Birmingham as our Manufacturing partner, our teams designed their cars and raced them at these finals. The day included being scored on giving verbal presentations on their engineering and enterprise portfolios, their display boards, the scrutineering of their designs and the manufacturing of their cars and then the race itself. The total race time was made up by the speed of the car and reaction time.

We competed in the Development Class against a total of 13 race teams. There were two teams in the Entry Class and two in the Professional Class, making a total of 17 teams overall. We were one of only three teams from year 9. We also competed against a University team and a couple of 6th form teams.

### **Fastest Car Winners** (Development Class) - **Team Kachow** (Isaak M, Nathan R. Laughlin L)

With great pride and amazement, team Kachow led from early on in the day as the fastest car with Isaak as the 'driver'. Their car led by 0.002 seconds throughout the day and while we knew we were winning, we didn't know the final result until the car underwent post-race scrutineering. So during the awards ceremony, when our name was announced, we celebrated! The car finished 1st in Development Class and 2nd out of all Classes, being narrowly beaten by a professional class car from a University.

### **Judges Award** (All Classes) - **Team Heatwave**

(Leyton L, Runa S-S, Thomas M, Kyle Jeffs) and Team Kachow.

The Judges Award is an award based on an holistic approach of how teams and individuals conduct themselves on the day. They base it on confidence of speaking, attitude around the arena, support of their team-mates, how they socialise with other schools, and much more. Out of the 17 teams, there were three nominees and both our teams made the three.

**Team Hydras** (Sian E, Iestyn E) after losing a team member, were unable to compete on the day but their resilience and dedication has been unmatched and they did a great job as pit crew and assistants on the day.

Mr. Roberts told us "To go to the finals with the expectation that this was a learning experience, with all students tasked with giving it their very best and to absorb the environment so they can be better next year, and to then come away with two awards, is just a dream. I cannot put into words just how proud of them I am and of how well they did in representing the school and making other schools and official F1 team staff take note of who we are.

With our new connection with Aston University and LJMU coming on board next season, along with a new network of colleagues from other schools, this program is going to slowly expand and become a real beacon for the school and community".

# English Department

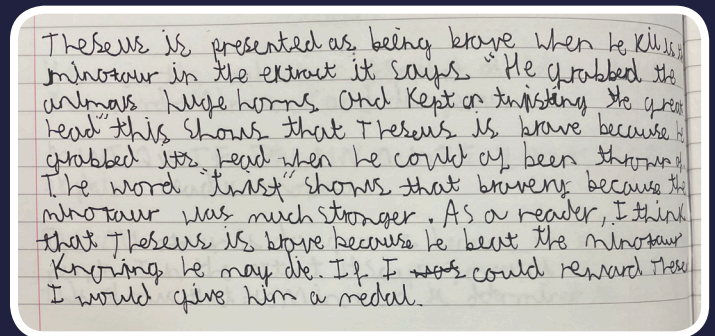

## Curriculum updates

This half term, we have welcomed local author, Julie Lamin who has been doing some narrative writing workshops with our Year 10 students. Earlier this week she presented an assembly to share with them the celebration of the birthday of Oscar Romero. Oscar Romero was an inspiration for her novel and our students found it fascinating to discover those links. Julie Lamin has given all of the 40 students who attended the workshops a signed copy of her novel. We are looking forward to doing some more work with Julie in the summer term with our KS3 students.

### Year 7

During our second spring term, our year 7 students have been learning about Greek Myths and focusing on the story of King Minos and his "half man, half bull" Minotaur. Students have analysed the language used within the short myth and discussed how Theseus is a heroic and brave warrior for defeating the "powerful" and "savage" wild beast.

Above: Mark R (Yr7) writing a response on how Theseus is a brave character as he defeated the Minotaur

### Year 8

To mark Valentine's Day, students in year 8 have reading and annotate love poetry and the different types of love. Students have learnt about how self- confidence and self-love for themselves, whilst also looking at the theme of love for a partner or a parent. Students have read Lord Byron's poem When We Two Parted, which discusses the bitterness he has for his ex-lover, who he had an affair with. The speaker within the poem is left feeling resentful towards his lover, as she fails to commit herself to him.

### Year 9

Year 9's have actively reviewing World Fiction, analysing extracts that relate to places around the world, exploring different ethnicities, religions and cultures. Students have learned the importance of acknowledging and respecting these groups of individuals by exploring their living conditions, surroundings and attitudes towards life.

### Year 11

Year 11 have just finished their last mock exams before their GCSEs start in May. Students have been working exceptionally hard by revising both language and literature within lessons. Students are showing dedication towards their studies and good knowledge of the examination assessment objectives. All students are welcome to intervention sessions after school and during the Easter holidays.

## Art Department

### *Freedom quilt printing*

This half term, Year 8 have been learning about print and making their own freedom quilt as a class. They have been learning about the geometric patterns of the pieces and their emotive origins in the American slave trade. These quilts were embedded with a kind of code, so that by reading the shapes and motifs sewn into the design, an enslaved person on the run could know the area's immediate dangers or even where to head next. Students firstly designed their own codes and then set about printing them onto large pieces of fabric using either disperse dyes or two colour, poly-tile printing.

## ICT Department

### *Raspberry Pi*

In celebration of British Science and STEM week running from the 10th – 19th March, all KS3 pupils in Computing undertook an activity which saw them program a Raspberry Pi computer on the International Space Station. The programs were written to code the 'Astro Pi' with an image of their choice, with a changing background.

All these programs have now been submitted and pupils now await their certificates, which will also show where above the earth the ISS was when it ran their program.

# College Canteen

Menu updates

Our delicious lunchtime menus are changing. From the 17th of April students can enjoy a variety of healthy new dishes with the same nutritional benefits as before..

# CAREERS BULLETIN #16

## JOB OF THE WEEK - PARAMEDIC

The NHS have hundreds of different roles within their organisation and are undertaking a major recruitment drive at the moment. Paramedics respond to emergency calls and play a crucial role as part of the health service provided in this country.

Find out more by watching Nicola's story below:

<https://icould.com/stories/nicola-p/>

### Apprenticeships – Year 11
