

Values and issues

The Religion Curriculum Framework for Key Stage 3 aims to help pupils to acquire and develop knowledge and understanding of the Catholic faith and other principal religions represented in Great Britain, to appreciate the way our religious beliefs shape life and behaviour, develop the ability to make reasoned and informed judgements about religions and moral issues and enhance their spiritual, moral, social and cultural development. The curriculum encourages pupils to become religiously diverse and religiously articulate. The curriculum is designed to enable all pupils to access and be challenged by the diverse and engaging content. The Key Stage 3 curriculum prepares pupils for the challenges of a demanding GCSE curriculum by embedding the important skills required for GCSE.

At Key Stage 4, the GCSE curriculum encourages pupils to explore philosophical and religious traditions and ethical issues and beliefs. Religious Education lessons provide pupils with the skills needed to be a change and often challenging work. Pupils are encouraged to debate issues and questions on the existence of God and modern moral issues and evaluate ethical debates with the ability to give their own opinion and formulate a judgement. In the values and issues of the faith, the values are presented from a religious education curriculum. The nature of religious education means that the values are not just a list of values but are embedded in the curriculum and are highlighted throughout the curriculum in a year journey.
